-
- * No feel of authoritarian state
 - * Is itself a work of leftie propaganda
 - * Boring, short and doesn't make you care about your characters

Even with slightly more interesting mechanics fails to be better than Republica Times. Excellent game so far! Beautiful and inventive art. Only downside so far is I wish w,a,s,d keys would move the map. I find myself getting finger-tied at times. Otherwise great though.. This was my old review: a nice free 2 play version of Bomberman..

They did a good job in my opinion.

Graphics are functional and the sound just as cheezy as the original Bomberman game..

I like it, i really do...

I'd give this a rating of 6,5 out of 10 points.

RECOMMENDED

NOW PLEASE DO SOMETHING TO THOSE IDIOTS POPULATING AND KILLING THIS GAME!!! OR CHANGE THE BAN SYSTEM!!! I GET KICKED MORE THAN ONCE FOR WINNING TWICE IN A ROW A LOT....

It's a sad world with a lot of REALLY dumb people.

Rating for this game as is? A solid 2 out of 10 points... It seems to get worse by the week...

NOT RECOMMENDED (with pain in my heart)

If you can't stand losing then stop playing competitive games dumbass.. That you want a life that is hard to deal with because you need to be "SPECIAL" winners then go to some cheat website, install an old Call of Duty and stop ♥♥♥♥ing our (the gamers) scene....

Sorry but this had to be said..

ps: If you are one of these♥♥♥♥♥♥♥♥♥♥then get help while you are still young because by looks of it now you are going to have a very confrontating life ahead of you where you can't kick people because they are better than you.

nuff said. Fun survival crafting game with mystery as in what happen ?

There are races to choose from for your character woot ! There are monsters / hostile entities and other rpg goodness that are challenging and also the prospect of exploring and exploring thus reward you with new findings they even have small bosses and challenging monsters inside of the game.

The game is still currently still in development though , so there still ironing out the bugs but so far so good and I like it the game is complete fun for me.

. pretty horror game 5/10. I give it a 6/10, and not a 6 like the game journalists use, a real 6 as in out of 10 points it gets 6. The soundtrack sucks, maybe one song is ok, the gameplay is decent, it's a good brainless timewaster and for 5 bucks you could do worse, like combine the 5 dollars with 55 other ones and buy evolve.. I really like the variety of animals and the terrain tools are easy to use. Biggest complaint about this game is that IT DOES NOT AUTO SAVE, which is exceedingly annoying because it will crash from time to time.

A game that only gets better as time goes on. As a fan of roguelikes and dungeon crawlers I was interested in this game from its creation. I enjoy the customizability of your character, as far as upgrades go, as well as choosing your weapon at the start of a session.

The random element of what runes you get, or what bounties are available, adds onto the difficulty factor, but not in a bad way. I would compare it to the randomness of item rooms and floors in the Binding of Isaac. If you are good enough at the game you can definitely complete the rounds without any runes in the way that an amazing Binding of Isaac player could defeat Isaac with just base stats and base items.

Looking forward to what's next for Blacksea Odyssey!. I understand this is in Early Access, but I have played better Indie games on the 360 that probably took a day to make. But if they worked on expanding the worlds and adding ALOT of stuff , this game would go places. But as it is, its a waste at \$12.99. To sum it up, I would not recommend this game at this moment. Maybe in the future.. This is illogical nonsense, a nothing burger if you will. Bored the entire time, story was awful. Anti Govt propaganda. OMG! Where do I begin?!

The graphics are absolutely amazing! The animals look so realistic and act just like they would in real life. I fully enjoy this game and would recommend it to anyone who loves animals and managing a zoo.

It is very similar to Zoo Tycoon 2 but includes many more amazing features, such as: having to care for plants (not just animals), animals aren't always up for adoption and sometimes you have to wait, animals have ages, etc.

I love this game and strongly recommend it!. Such a shame that my solar panel aren't charging my satellite. Note: This game been tried out and reviewed in Steam offline mode or on Consoles.

Monday Night Combat is a multiplayer shooter game that incorporates shooter mechanics, tactical tower defense mechanics, and fun mechanics into one package. So did this bizarre mix of mechanics work to the game's benefit or did it just end up being too much for one little game to take in.

Monday Night Combat may be a small game, but it was able to take in a deep breath and work the air through its system smoothly allowing for an entirely new take on multiplayer shooters.

Overall: Monday Night Combat is an enjoyable and unique multiplayer shooter that incorporates a whole lot of different mechanics into a little game. The end result is an engrossing and highly addictive experience that makes it all the worthwhile to explore the depths of indie multiplayer games.. I can't complain too much since it's only 1 dollar. It's a simple game. You jump around and shoot things. It doesn't fit the music too well, but the visuals are neat. The song browser is annoying, though, since it puts all of your indexed songs in one list. Get the songs you want ready beforehand.

As for difficulty, it is TOUGH. It seems easier than when I tried it in early access, but there's little room for mistakes. Didn't hit the glass in 1 or 2 shots? Say hello to die. Especially on the hardest difficulty where if you make a single mistake, you fail the song.

Oh and also it has SEVENTY EIGHT ACHIEVEMENTS
