This game is so bad that it makes me not want to spin to win, so you can understand how bad that is, lets just say it can end worlds.. Just really bad u can only use 1 stick and the y button on controller. It's a mobile game. I bought it for 0,3\u20ac so i cant complain :)

Fun game to play when you have nothing else to do.
. worth 30 cents i guess

well there are several nice things in this game. one huge minus though controls need to be changeable in game not from launch menu. my xbox controller my flightstick and my keyboard all fail to play this game because the controls are not defined as to what they are supposed to be so in this instance turning shouldnt be labled as horizontal and acceleration shouldnt be labled as virtical. also nitrous brake and ebrake shouldbnt be labeled as fire 1,2,3 because this is confusing as ♥♥♥♥ing hell please fix your control labels and add the control config in game as its needed to change the controls on the fly

. I HATE THIS GAME! Bad graphics, Horrible soundtrack, and YOU CAN'T TURN WITHOUT DRIFING!. Amm drift + BWM + Maps 9/10. Excellent game! This allows you to pass the time and with a little practice you get to make excellent drift! (I play with an xbox one controller)
